AGS Glovebox & Isolator Annual Conference & Trade Show

Arlington, VA - August 6-8, 2012

AGS
American Glovebox Society

Basic Training

- Theory of Containment
- Glovebox/Isolator Design
- Ergonomics
- Fabrication
- Installation/Operation
- Procurement
- QA
- Glovebox Demonstration & Hands-on-Training

Advanced Training - Best Practices

This full day of training will address best practices associated with gloveboxes for the Pharmaceutical, Biocontainment, Nuclear and Radiological industries. Topics will include:

- Design
- Quality Assurance
- Gloves
- Fabrication
- Ergonomics
- Leak Testing
- Fire Protection
- Operator Training
- Hazardous Glovebox Operation
- Pharmaceutical Glovebox Operation
- Biocontainment Glovebox Operation
- Configuration Management
- Breach Response
- Retrofitting
- Decommissioning
- Glovebox Demonstration & Hands-on-Training

Best Practices Panel Discussion

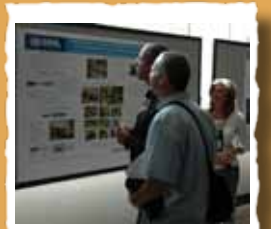

Panel Discussion will address best practices for the Pharmaceutical, Biocontainment, Nuclear and Radiological industries. The panel will consist of industry experts across the private and public sector that have dealt with best practices that affect the day to day business of our industry. Specifically, "benchmarking" in the areas such as glovebox design, fire protection, fabrication techniques, training, and ergonomics will be discussed. Lessons learned and how best practices evolve, get documented and disseminated will also be discussed. Specific questions to the panel are encouraged.

Events:

30 exhibitors including Glovebox and Isolator manufacturers and providers of ancillary equipment.

- Advanced Training Seminar - Best Practices
- Basic Training Seminar
- Glovebox Demonstration & Hands-on-Training
- Best Practices Panel Discussion
- Interactive Case Study
- Technical Sessions
- Exhibits
- Technical Papers
 - ⇒ Pharmaceutical
 - ⇒ Nuclear
 - ⇒ Bio-containment
- Vendor Exhibits
